

KANBAN PROJECT SUBMISSION

Shreecharana – PES1UG24CS917 – BPS61

Household Carbon Footprint & Target Tracker

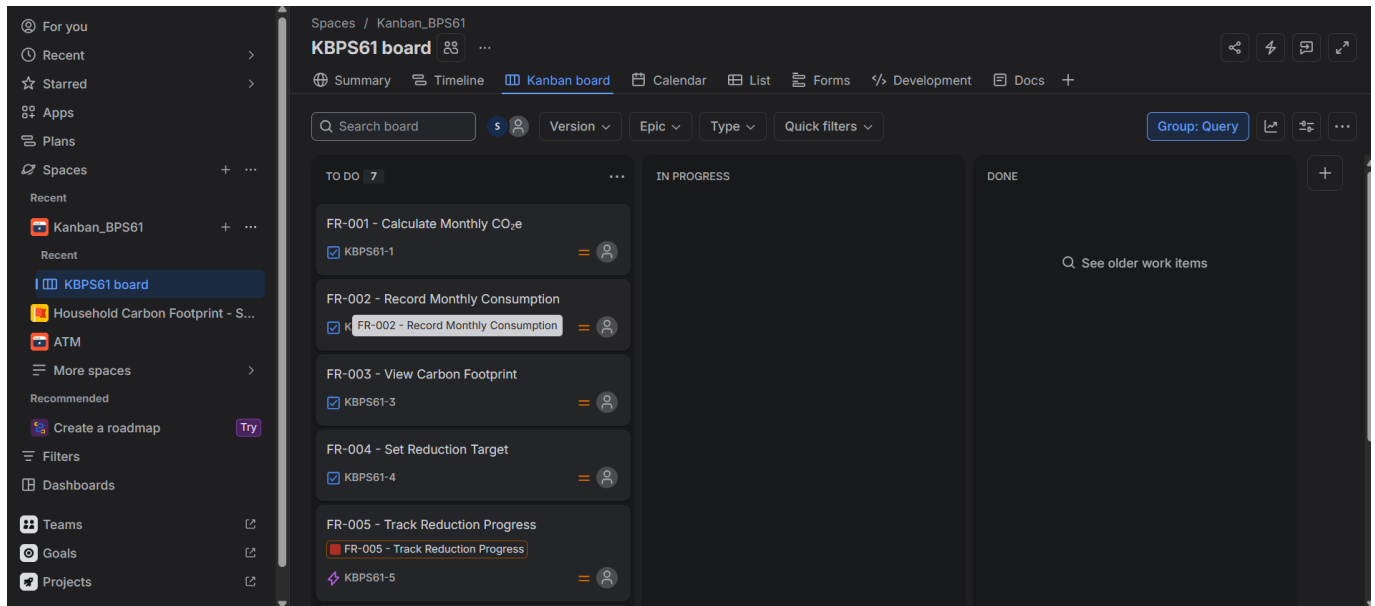

This document presents the Jira Kanban project work for BPS61. The project contains the functional and non-functional requirements, requirement-based work items, and their Kanban workflow progress.

Project: **Kanban_BPS61**

Project Key: **KBPS61**

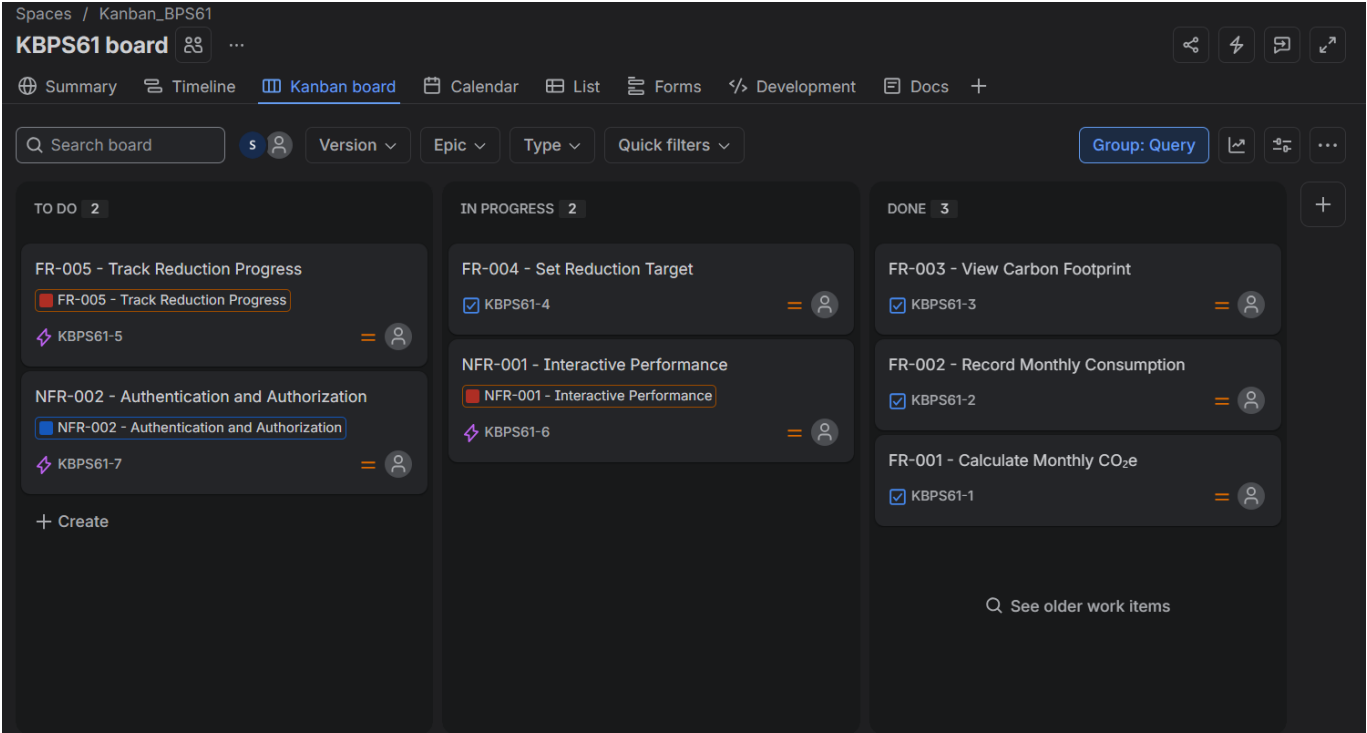

1. Kanban Board – Requirements

The Kanban board for BPS61 was created to manage the project requirements and track their progress through the workflow. The board contains the requirement-based work items for the Household Carbon Footprint & Target Tracker.

2. Kanban Workflow Progress

The Kanban board shows the work items distributed across To Do, In Progress, and Done. This demonstrates the tracking of requirement implementation through the project workflow.

3. Sprint Burndown / Work Completion

The Jira report records the sprint start and the completion of the work items. The remaining work decreases as the issues are completed, demonstrating the burndown of the planned work.

				Issue count		
Date	Issue	Event Type	Event Detail	Inc.	Dec.	Remaining
03/Sep/26 1:30 PM	HCFS-4	Sprint start		1		
	HCFS-5			1		
	HCFS-6			1		
	HCFS-9			1		
	Total					4
03/Sep/26 1:33 PM	HCFS-4	Burndown	Issue completed		1	3
03/Sep/26 1:34 PM	HCFS-5	Burndown	Issue completed		1	2
	HCFS-6	Burndown	Issue completed		1	1
03/Sep/26 1:35 PM	HCFS-9	Burndown	Issue completed		1	0
